REQUIREMENT SPECIFICATION FORM

Project Name Project Name Project Name PhysioTrack Requesting Firm or Organization Phone No							
PhysioTrack Requesting Firm or Organization Contact Personal Phone No e-mail Request Information Request Description Patients should get notifications that remind their daily home exercise. Justification This feature is crucial for patient engagement and adherence to their prescribed treatment plan. Regular notifications will serve as reminders, ensuring patients perform their daily home exercises, contributing to the effectiveness of the physiotherapy treatment. Effect if declined (Risk if the project request is declined) If patients do not receive regular reminders, there is a risk of decreased user engagement with the app. This could result in lower user rates, potentially impacting the overall success and popularity of the application among physiotherapists and patients.
